For nearly half a century — 42 years today to be exact — The Everglades News has served the western section of Palm Beach County each week and with a great deal of luck has not missed an issue during that time. During the 1928 Hurricane it was necessary to call on a West Palm Beach paper to assist in order that this newspaper would reach its subscribers on time.

Through frosts, freezes, floods and hurricanes, the personnel of this weekly paper has had one idea foremost in mind — to get out the paper so that subscribers might know what is going on in the community.

Founded March 11, 1924, by Howard Sharp, the paper has had only one other owner — Keathley Bowden of Clewiston — other than the present ownership by Paul Rardin. Along with the editorship by Howard Sharp, one other editor, Louis Goolsby, served a short stint in that capacity before Editor Rardin appeared on the job in 1934 and has been at the helm of the paper continuously since that eventful day nearly 32 years ago.

Looking over the first copy issued back there 42 years ago, a few items of interest were typed and are reprinted here for the oldtimers to enjoy reading. They follow:

March 11 — Connors Highway (US 98) may be opened by the first of June.

Miami — There are few, if any, obstacles along the path leading to southern Florida's development of the sugar industry and prospects for the success of Pennsylvania Sugar Company here are "tremendous."

C. W. Bell was at Canal Point Monday to receive a shipment of banana plants which he took to his place at Bacom Point. His son, Charlie, came in on the same boat. The Palms. Mr. Bell bought all the plants available in Boynton Beach from A. A. Atwater.

The sugar mill south of here (Bryant) has been grinding cane since the first of last week.

The Glades Hotel in Canal Point is doing a rushing business in caring for buyers and tourists and land-seekers.

The tracks for the railroad soon will be in Canal Point. Two miles of rails are laid south of St. Lucie Canal.

J. Harvey Henderson, inspector for the state plant board with headquarters at Gainesville, reports there are 900 acres of sugar cane around the lake with 400 acres being planted for next year.

In marketing more than a million dollars worth of produce from 2,000 acres of land, demonstration is being made of the remarkably high value-producing quality of muck lands on the eastern shore of Lake Okechobee in the locality known as East Beach and embracing Canal Point, Pahokee, Bacom Point and adjacent farms.

One thousand cars of tomatoes are to be shipped in 30 days. \$5,000

Mrs. J. L. Reeves, general chairman of the W.S.C.S. of the Pahokee First Methodist Church, Mrs. Louis Davis and Mrs. Clarence Yates, wife of the evangelist at the revival, attended the Annual District Conference of the W.S.C.S. at the First Methodist Church in Pompano on Tuesday.

Pathologist Assigned To Local Station

Dr. Jack L. Dean, plant pathologist with the U. S. Sugar Crops Field Station in Meridian, Mississippi, has been transferred to Canal Point where he has joined the staff of research workers at the local U. S. Sugar Cane Field Station.

Mr. Dean is temporarily living at the home of B. A. Belcher in Pahokee. He will be joined by his wife, Norma, and two sons, Paul, eight and Robert, 10 in a few weeks.

Dr. Dean was born at Keota, Oklahoma, attended Tulane University two years before entering the U. S. Navy in 1943 to serve in World War II until 1946. He earned his Master of Science degree from the graduate school of Oklahoma State University in 1952 and later received the Ph.D. in Plant Pathology from Louisiana State University, Baton Rouge.

Dr. Dean's assignment is research studies with diseases of sugar cane and related plants in Florida. He will have jurisdiction of disease inspection of sugar cane plants in quarantine set-ups at Beltsville, Maryland, Fort Pierce and Canal Point, Florida.

Mrs. Trena McManus and children of Miami were the guests of her parents, Mr. and Mrs. Marvin Vandegrift during the past weekend.

to 40,000 hampers of English peas, peppers and beans netted the farmers \$150,000.

Thirteen hundred hampers of green beans, worth over \$5,000 at the Canal Point dock and \$8,500 in the northern market, spilled into Lake Okechobee when the barge sank 7 miles east of the red light on Observation shoals.

Cuttings from the cane testing station in Canal Point, in a number which embraced 157 varieties, were shipped this week to the Everglades Experiment Station near Belle Glade.

The McCoy Line is now running excursions into Canal Point every Sunday from West Palm Beach and Moore Haven.

J. S. Atkins, chairman of the W. A. Reynolds Memorial Youth Service Plaque, discussed the plans for the upcoming ceremony which is to be held Sunday, March 13, at 3:00 p.m. at the Lions Building. Jack Faircloth, ex-mayor of West Palm Beach and past scout master, will be the guest speaker. There will be some scouts from the coastal area who will put on an exhibit of their activities outside. Then everyone will go inside for the unveiling of the plaque and speech. Following the unveiling refreshments will be served. The public is cordially invited to attend these ceremonies.

On March 18, Friday, at 7:00 p.m. the Lions Club will sponsor the 2nd Annual All-Sports Banquet for boys and girls who have participated in scholastic activities at the Pahokee High School cafeteria. The public is invited and tickets can be purchased from Joe Alderman, Jr., and Carmen Salvatore at \$3.00 per person. The speaker will be James W. Tanner, basketball coach at Palm Beach Junior College.

The guests at the meeting were Ray Vaughn, Clermont, song leader for the revival at the First Methodist Church in Pahokee and Rev. Clarence Yates, Miami, evangelist. Mr. Vaughn played and sang a few songs for the club members. Jack Sherrod was the student guest.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000, and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy H Bonds automatically through the Payroll Savings Plan while you work. This Plan means you can have any amount you name automatically deducted every pay day. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for E Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS

Judge Tyson Runs For Re-election

Judge James L. Tyson, Jr., this week announces his candidacy for re-election as Magistrate in the only court of its kind in the State of Florida. Judge Tyson is a Democrat and no opposition, as yet, is looming on the horizon for the very popular judge who has served that capacity since inception of the court in 1961.

With the growth of the area it is possible that the Judge will handle a case load reaching the 5,000 mark during the next year or two. In 1965, he handled 4,217 cases. Known as the District 1 Court of Palm Beach County, it was originally designed to cut down on the number of cases that would be heard in criminal court in the county seat of West Palm Beach.

A graduate of the University of Mississippi Law School, he served as a weather observer during World War II.

Judge Tyson, his wife, Alyce, and their three children, Willola, James III and Richard reside at 1077 Garden Place in Pahokee. The daughter is attending college and the eldest son is an athlete at Pahokee High School.

Kill this peltitory weed in sugar cane. Use Atrazine. Here's how:

When you see peltitory weed starting to grow, apply Atrazine 80W herbicide, plus a little surfactant. You'll clean out infestations of this winter annual fast and effectively . . . without hurting cane.

Atrazine is safe to sugar cane. It will not injure your crop when you apply it as directed on the label. And since it's non-volatile, there's no danger of drift to adjacent, sensitive crops.

Even though Atrazine has proved to control peltitory at any stage of growth, early treatment assures best results. With peltitory under control early, you grow more sugar cane per acre.

That's because Atrazine prevents

peltitory from interfering with sugar cane tillering. Also, Atrazine helps make soil moisture and nutrients available for your cane, and not for peltitory weed.

So plan now to grow the maximum tonnage of sugar cane from each acre you plant this season. Just use Atrazine to control peltitory weed this winter.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
U.S. SAVINGS BONDS
